SCHOOL CLOSINGS

During periods of adverse weather or emergency conditions, information pertaining to the closing or delayed opening of schools will be available on area television and radio stations. If no announcement is made via the news media, schools will operate as usual.

When the school district is closed due to adverse weather or emergency conditions, designated employees of the Portsmouth City Public Schools who are members of the Emergency Response Team (E-Team) will be required to report to work unless personally notified not to report. The E-Team consists of designated supervisory personnel and other employees with particular job-related expertise needed to cope with the adverse weather or emergency conditions.
